

23 [research data] things

Australia

Extend your knowledge about data management and gain experience by participating in this exciting community

Do it anytime, join in the regular Catch-up Webinars and/or local Community Catch-up, visit ands.org.au/23-things

Catch-ups & MeetUp

- > **Kick-off Webinar** (1 March) and **Catch-up Webinars** on 12 April, 24 May, 28 June, 2 Aug, 6 September, 18 October
- > Join your local **Community Catch-up Group** or start a new one
- > Post a comment on **MeetUp**

7–11 March 2016

1 Getting started with data

14–18 March 2016

2 Issues in research data management

21–25 March 2016

3 Data in the research lifecycle

2–6 May 2016

7 Data citation for access & attribution

9–13 May 2016

8 Citation metrics for data

6–10 June 2016

11 What's my schema?

13–17 June 2016

12 Vocabularies for data description

20–24 June 2016

13 Walk the crosswalk

4–8 July 2016

14 Identifiers for data

22–26 August 2016

19 APIs & apps

29 August – 2 Sept 2016

20 Do it with data!

19–23 September 2016

21 Tools of the trade

Ready, set, data!

Build your knowledge of key concepts and issues in research data management.

Repositories for data

Learn about repositories for depositing, managing and discovering research data.

Data citation & impact

Extract value from research data: data citation, impact and metrics.

Rights, ethics & sensitive data

Learn about responsible sharing, reuse, and the importance of licensing and attribution for research data.

Metadata & more

Transfer your library skills: resource description, controlled vocabularies, linked data and crosswalks.

Let's talk data!

Start a data conversation: data interviews and data management plans. Data stories from publishers and research funders.

Hands on with data & tools

Delve into domain specific data and use software tools for research data. Challenge yourself to try something new!

Data communities

Who's who in the research data management zoo? Connecting with colleagues and research data related services.

4–8 April 2016

4 Data discovery

18–22 April 2016

5 Data sharing

25–29 April 2016

6 Long-lived data: curation & preservation

16–20 May 2016

9 Licensing data for reuse

30 May – 3 June 2016

10 Sharing sensitive data

18–22 July 2016

15 Data management plans

25–29 July 2016

16 What are publishers & funders saying about data?

8–12 August 2016

17 Data literacy & outreach

15–19 August 2016

18 Data interviews: talk the talk

26–30 September 2016

22 What's in a name?

3–7 October 2016

23 Making connections
